WORK EXPERIENCE

Software Engineer II Silvercar

01/2019 – Present

Austin TX

Silvercar is an industry leading luxury rental car brand. Dealerware is a single platform solution providing automation for dealerships and OEMs.

Achievements/Tasks

- Worked several full-stack React/Redux/Typescript web applications including Silvercar and Dealerware [🔗](#)
- Used latest React features such as Hooks to upgrade an out of date application and performed a component audit of our applications to help contribute to a component library
- Performing ADA audits and fixes problems to help bring the site closer to AA WCAG 2.0 compliance
- Experience writing unit tests with Jest, Enzyme and React Testing Library
- Experience with build systems using Webpack
- Fixed several bottlenecks within our web app performance by applying the latest performance standards to increase our time to first meaningful paint by 2 seconds
- Applied SCSS best practices
- Experience working with Go and Ruby on Rails application environments

Front-End Engineer SapientRazorfish

07/2014 – 01/2019

Chicago/Austin

SapientRazorfish is an industry-leading digital ad agency that works with Fortune 500 companies to improve their creative and digital ad campaigns.

Achievements/Tasks

- Front-End Web Development focused on standard-compliant HTML, CSS and JavaScript development for several Fortune 500 companies
- Developed a component library for a major financial client using React/ES6/SCSS/Webpack/Node
- Built a React SVG Icon system
- Experience doing WCAG AA and AAA audits and implementations to ensure the client's site was ADA compliant
- Experience working with mobile-first development and responsive design and cross browser functionality
